ARTIST QUOTE

“For me, ‘Baje’ is personal. It’s about that fine line we all walk between keeping it clean and embracing our edge. Life is unpredictable, but I believe the hustle will pay off and nothing will scatter. That’s the spirit I poured into this song.” — Manky Vibe

SOUND & STYLE

Driven by melodic piano chords, layered percussion, and the richness of a digital saxophone, “Baje” unfolds as a smooth but energetic Afrobeats record. The production balances warmth and groove, giving the track both emotional depth and street-level bounce. It’s a sound that carries Manky Vibe’s voice with conviction while leaving space for the record’s mantra-like message to shine.

HEADLINE

Manky Vibe launches his debut journey with “Baje” — a bold Afrobeats anthem from upcoming EP Freedom

OVERVIEW

“Baje”, which means “spoilt” or “damaged” in Yoruba, is more than a track, it’s a mantra for resilience. Blending street wisdom with personal swagger, the single reflects Manky Vibe’s duality: the good guy and the bad boy, both necessary for survival in a chaotic world. At its core, “Baje” is a heartfelt plea, may the hustle never be in vain, may nothing fall apart, a message that resonates with dreamers and fighters alike.

BOILERPLATE

Manky Vibe is the creative lead of Manky Media, a media and music outfit combining music, visuals, and storytelling. With Freedom, his debut EP, he sets out to showcase Afrobeats’ vibrant heartbeat while broadening its emotional and sonic landscape.
